Summary

BCA 2025 graduate with practical skills in React.js, React Native, and REST APIs. Strong foundation in web and mobile development, quick to learn, and ready to contribute in fast-paced, real-world projects. Passionate about turning ideas into clean, functional apps — both on the web and mobile. I focus on writing efficient code that delivers real value and drives seamless user experiences.

Education

Bachelor of Computer Applications (BCA)

Brainware University, Kolkata – **SGPA:** 8.7

Kolkata, West Bengal

Aug. 2022 – Aug. 2025

Senior Secondary (I.Sc.)

Pt. J. L. N. S. SR. SEC. School, East Champaran, Bihar – **Marks:** 75.2%

Motihari, Bihar

April. 2020 - May. 2022

Projects

NextCoreAI Consulting Website

[[Live Site](https://nextcoreai.in)](<https://nextcoreai.in>)

- Built **NextCoreAi**, a unique **AI-powered freelancing platform** using **React**, **TypeScript**, **Tailwind CSS**, and **Node.js**. Features **real-time** service matching, project management tools, and smart business-boosting capabilities

Courier Transport Service Website

[[Live Site](#)]

- Developed a custom courier platform with **React**, **Node.js**, and **Firebase**, inspired by **real-world logistics**. Features **real-time tracking**, smart **booking management**, and a sleek, **responsive UI**.

Portfolio Website

[[Live Site](#)]

- A **next-gen portfolio** crafted with **React**, **Tailwind**, and **TypeScript**—designed to stand out with dynamic animations, elegant transitions, and a powerful display of my skills and projects. Built to impress on every screen.

Music Streaming Web Page

[[Live Site](#)]

- Built a sleek music player with **React**, **TypeScript**, **Tailwind**, and **Firebase**, offering animated playlists, trending tracks, and seamless transitions.

Technical & Analytical Skills

- Programming:** **JavaScript** (ES6+), Python (basic scripting & automation)
- Frontend Development:** **HTML**, **Tailwind CSS**, **React.js**, **React Native**, **Redux**
- Version Control:** **Git** & **GitHub** – managing projects and team collaboration
- Backend & APIs:** **Node.js**, **Express.js** – **CRUD** operations, **JWT** & **OAuth**-based authentication, **RESTful APIs** – integration & testing using **Postman**
- Databases & Cloud:** **MongoDB**, **Firebase** (**Realtime Database**, **Firestore**, **Authentication**)
- Tools & Collaboration:** **Git** & **GitHub** (version control, team workflows), **Excel/Google Sheets** (data handling) **Basic UI** prototyping with **Canva**

Soft Skills

- Communicates clearly enough to get things done and avoid confusion
- Works well with teammates — open to feedback and quick to adjust
- Picks up new tools, libraries, and workflows fast
- Stays calm under pressure, especially when debugging or on deadlines
- Organized with tasks — knows what to prioritize and when to ask for help
